SOCIETY AND CULTURE IN NORTHERN INDIA 1850-1900

by

Shiva S. Dua

FORMERLY PRINCIPAL, KALINDI COLLEGE
UNIVERSITY OF DELHI

ISBN, 81-85004-04-8

1987

272 pages

Rs 210

It is a scholarly portrayal of the correct picture of the generally misrepresented society and culture in Northern India during the period 1850 to 1900. After wading through official, non-official, printed and original data, academic and literary analysis was made in an objective manner, viewing the situation from a purely academic and inquisitive angle. The findings are at variance with popular impression prevalent among the foreigners that social evils were rampant everywhere. It has been found that no generalisation is applicable to the entire region. The society was neither still nor complaisant and it presented a kaleidoscope of different colours, shades and hues. Of course, it moved slowly. The learned author has probed the causes of the tardy progress closely bound with political subjection.

It has been found that the Sahibs (ruling foreigners) exhibited the same type of class-consciousness, supercilious and egoistic, of which they accuse the Indian society. The probe reveals that the evolution of society and culture in the region was never static. It can prove a most useful guide to the students and scholars as also to the policy makers.

CULTS, CUSTOMS & SUPERSTITIONS OF INDIA

by

John Campbell Oman

The Indian people belong to many races—Aryans, Dravidians and Mongols and combinations of these. Most of the Indians are of mixed race. Among them are adherents of nearly all religions—Hindus, Muslims, Christians, Buddhists, Jews, Sikhs, Parsis, Jains, and others. The author has detailed numerous cults, strange beliefs, superstitions and popular delusions among all Indian religions.

The author has striven, to the best of his ability, to be scrupulously impartial in his judgements of the character and institutions of the interesting peoples about whom he has written.

The book is divided into four parts. Part I is devoted to religious and sectarian matters; Part II is devoted mainly to fairs and festivals; Part III to certain aspects of domestic life among the common people, and Part IV to curious beliefs and superstitions.

The inclusion of numerous illustrations is intended to elucidate the text.

EARLY RECORDS OF BRITISH INDIA

A HISTORY OF THE ENGLISH SETTLEMENTS IN INDIA

by

J. Talboys Wheeler

The author, who was the Assistant Secretary of the Government of India in the Foreign Department, acquired a first hand information from Government documents and other contemporary documents. The authoritative and documented work collected from original or half-forgotten sources has helped to throw more light upon the rise of British power in India. The labour which has been spent upon this volume is beyond all calculations. It can be judged from the voluminous records which have been carefully searched and recorded in this book. Mr. Wheeler has undertaken and brought to a successful completion a work which few persons would have ventured upon.
